Subject: NYSDEC Technical Assistance Report
Attachments: NYSDEC St Gobain Report - Follow-Up - Aug 14.docx; NYSDEC Report - Final 12-2-19.pdf

Hello Mike and Karl –

I am sending this email to make you aware of the attached report that we plan to submit to the NYSDEC in response to a request for technical assistance. This report follows-up on the December 2, 2019 report that we submitted to NYSDEC that provided qualitative analyses of PFAS and VOC from a PFTE sintering process at the Saint Gobain facility in Hoosick Falls. This reports provides quantitative estimates of TFE and VOC samples collected in Summa cannisters. I have attached the original December 2 report for your reference in case your are interested.

I am planning to send these report next week, pending EPA Region 2 review.

Please let me know if you have any questions.

Thank you.
